

# PRODUCTS FOR SCHOOL

**1 HORN SPEAKERS (8186)**  
Loud, durable and weatherproof, horn speakers are deployed in playgrounds, parking lots, gymnasiums, and outdoor locations to deliver loud and clear communication.

**2 DISPLAY SPEAKERS (8410)**  
Algo's Display Speakers bring attention-grabbing visual and audible communication in a single device for voice paging and notifications in classrooms.

**3 DISPLAY SPEAKERS (8420)**  
Designed to deliver highly notable visual alerting in multiple directions, this device offers ideal audible and visual notification in hallways or large open spaces.

**4 CEILING SPEAKERS (8198)**  
The 8198 PoE+ speaker powers up to three satellite speakers, delivering cost-effective, wide-area coverage for paging, background music, and notifications.

**5 VISUAL ALERTERS (8138)**  
Signal events with visual alerts for emergencies or daily messaging. The 8138 also integrates with door sensors to notify staff of open or closed doors.

**6 PAGING ADAPTERS (8301)**  
Integrate analog PA systems into IP environments. Paging adapters enhance communication with an embedded scheduler for bells and announcements.

**7 CALL BUTTONS (1203)**  
Utilized to report safety concerns within the school premises, call buttons quickly and easily initiate calls in case of emergencies and security threats.

**8 INTERCOMS (8201)**  
With Algo's intercoms, school administrators can control and verify who enters the building before granting access to enter the school premise.

**9 CONSOLE (8450)**  
Console for broadcasting announcements, paging, and emergency alerts, with a mic, customizable buttons, and integration with Algo devices.
