

## DESCRIPTION

Algo manufactures three IP Horn Speakers with identical appearance. Two IP Speakers, the 8186 IP PoE Horn speaker and the 8196 IP PoE+ Horn Speaker as well as the 1196 Satellite Horn Speaker. The 8186 is a standard PoE IP speaker and is ideal for many applications. The 8196 is designed for PoE+ power and provides added benefits and cost reduction with Algo's Satellite Speaker Technology, as up to three 1196's may be connected to each 8196 on one single network drop. Below is a summary of the power and audio output of each speaker in a variety of configurations, including how many Satellite speakers are attached.
